PROFESSIONAL PROFILE

Frontend Engineer with 5 years of experience building responsive web applications with Vue.js, TypeScript, Pinia, and modern HTML. Experienced in designing maintainable component libraries, integrating REST APIs, improving accessibility, and using Cypress for reliable end-to-end testing across product workflows.

PROFESSIONAL EXPERIENCE

Frontend Engineer

Mar 2024 - Present

Lusitana Digital Works · Porto, Portugal

- Built customer-facing Vue.js and TypeScript modules for a subscription management platform, using Pinia for shared state and Vite for fast delivery cycles.
- Created reusable HTML and CSS components that improved consistency across onboarding, billing, and account settings screens.
- Expanded Cypress end-to-end coverage for checkout and user-permission flows, reducing regressions before production releases.
- Collaborated with backend engineers and product designers to refine API contracts, accessibility behavior, and responsive UI states.

Technologies: Vue.js, TypeScript, Pinia, Cypress, HTML, CSS, Vite, REST APIs, Git

Frontend Developer

Jan 2022 - Feb 2024

Ribeira Cloud Solutions · Porto, Portugal

- Developed Vue.js dashboards for logistics clients, converting complex operational data into clear, responsive interfaces.
- Migrated key screens from JavaScript to TypeScript, improving type safety and reducing defects during feature changes.
- Implemented Pinia stores for shipment tracking, user preferences, and notification state across multi-page workflows.
- Maintained Cypress suites for smoke, regression, and role-based access scenarios in the release pipeline.

Technologies: Vue.js, TypeScript, Pinia, Cypress, HTML, SCSS, Chart.js, Jira, GitLab CI

Junior Frontend Developer

Jul 2021 - Dec 2021

Aurora Web Studio · Porto, Portugal

- Built responsive landing pages and product interfaces with semantic HTML, CSS, and Vue.js components.
- Supported accessibility improvements including keyboard navigation, form labels, and contrast adjustments.
- Assisted with Cypress test maintenance for common user journeys such as signup, login, and profile updates.

Technologies: Vue.js, JavaScript, HTML, CSS, Cypress, Figma, Git
