Cluj-Napoca, Romania

PROFESSIONAL PROFILE

Angular Frontend Engineer with 5 years of frontend experience building responsive, reactive web applications in TypeScript. Strong hands-on background with Angular component architecture, RxJS state and stream handling, Jest unit testing, and maintainable Sass design systems for product-focused teams.

PROFESSIONAL EXPERIENCE

Angular Frontend Engineer

May 2024 - Present

Nordbyte Digital · Cluj-Napoca, Romania

- Developed Angular feature modules for a customer analytics portal, using TypeScript, reactive forms, and reusable component patterns.
- Built reactive data flows with RxJS observables, combining API streams, filters, and user interactions for responsive dashboards.
- Expanded Jest unit test coverage for services, pipes, and UI components, improving reliability before release cycles.
- Maintained Sass-based styling architecture with shared variables, mixins, and responsive layouts.

Technologies: Angular, TypeScript, RxJS, Jest, Sass, HTML5, REST APIs, Git

Frontend Developer

Nov 2022 - Apr 2024

Carpathia Cloud Works · Cluj-Napoca, Romania

- Implemented Angular interfaces for internal workflow tools, translating product requirements into accessible, mobile-friendly screens.
- Created RxJS-powered services for search, pagination, and real-time status updates across multiple user journeys.
- Wrote Jest tests for business logic and component behavior, supporting safer refactoring of legacy views.
- Collaborated with backend engineers to define REST API contracts and handle validation feedback in TypeScript.

Technologies: Angular, TypeScript, RxJS, Jest, Sass, REST APIs, JSON, Jira

Junior Frontend Developer

Aug 2021 - Oct 2022

MiraSoft Applications · Cluj-Napoca, Romania

- Built and maintained Angular components for booking and account management pages under senior developer guidance.
- Converted design mockups into Sass stylesheets with reusable layout utilities and consistent browser behavior.
- Improved form validation, error handling, and client-side routing in TypeScript-based single-page applications.

Technologies: Angular, TypeScript, Sass, HTML5, CSS3, JavaScript, Git
