Plovdiv, Bulgaria

PROFESSIONAL PROFILE

Data Scientist with 6 years of analytics experience building statistical models, reporting solutions, and decision-support dashboards. Skilled in Python, R, SQL, Tableau, and applied statistics, with experience translating business questions into measurable experiments, forecasts, and customer insights.

PROFESSIONAL EXPERIENCE

Data Scientist

Aug 2023 - Present

Maritsa Insight Labs · Plovdiv, Bulgaria

- Built churn and demand-forecasting models in Python and R using regression, classification, and time-series methods.
- Designed SQL data marts and Tableau dashboards for commercial teams, reducing recurring manual reporting work by 35%.
- Partnered with product and finance stakeholders to define KPIs, run hypothesis tests, and communicate statistical findings in clear business terms.

Technologies: Python, R, SQL, Tableau, scikit-learn, tidyverse, PostgreSQL, Statistics

Analytics Specialist

Sep 2020 - Jul 2023

Orion Retail Systems · Sofia, Bulgaria

- Analyzed sales, inventory, and campaign data with SQL and R to identify regional performance trends and margin opportunities.
- Created Tableau executive dashboards covering revenue, customer segmentation, and promotion effectiveness.
- Developed statistical A/B test evaluations and confidence-interval reporting for pricing and merchandising experiments.

Technologies: R, SQL, Tableau, Python, PostgreSQL, Statistics

Junior Data Analyst

Aug 2019 - Aug 2020

Balkan Metrics Group · Plovdiv, Bulgaria

- Prepared and validated operational datasets using SQL queries and Python scripts for monthly analytics packs.
- Supported descriptive statistics, cohort analysis, and KPI reporting for logistics and customer support teams.
- Automated recurring CSV cleanup and Tableau refresh checks, improving reporting reliability for account managers.

Technologies: Python, SQL, Tableau, Excel, Statistics
