Brussels, Belgium

PROFESSIONAL PROFILE

Junior UX/UI Designer with 2 years of product-design experience creating accessible web and mobile flows for fintech and civic-service products. Skilled in Figma, design systems, accessibility, user research, and interactive prototyping, with a BDes in Interaction Design and hands-on experience building reusable component libraries.

PROFESSIONAL EXPERIENCE

Junior UX/UI Designer

Aug 2025 - Present

CanalPay Digital · Brussels, Belgium

- Designed responsive onboarding, account-overview, and transaction-review screens for a digital banking product.
- Created accessible design-system components in Figma, including form fields, alerts, navigation patterns, and contrast-compliant states.
- Built clickable prototypes for usability sessions and iterated flows based on customer-support insights and stakeholder feedback.
- Documented component usage guidance to help engineers implement consistent interaction patterns.

Technologies: Figma, Design Systems, Accessibility, Prototyping, WCAG, FigJam

UX Design Intern

Aug 2024 - Jul 2025

Northstar Civic Apps · Brussels, Belgium

- Supported user research for a public-service scheduling platform through interview notes, journey maps, and task-flow analysis.
- Translated research findings into wireframes and mid-fidelity prototypes for multilingual Belgian audiences.
- Improved form usability by refining labels, error messages, keyboard focus states, and mobile layouts.
- Collaborated with product managers and frontend developers to prepare design handoff assets.

Technologies: Figma, User Research, Prototyping, Accessibility, Miro
