Stockholm, Sweden

PROFESSIONAL PROFILE

QA Automation Engineer with 6 years of quality engineering experience across web applications, CI pipelines, and release validation. Specializes in building TypeScript-based Cypress and Playwright automation, maintaining Jest test coverage, and integrating reliable regression suites into GitHub Actions.

PROFESSIONAL EXPERIENCE

QA Automation Engineer

Aug 2023 - Present

Nordlane Commerce · Stockholm, Sweden

- Built and maintained end-to-end automation suites in TypeScript using Cypress and Playwright for customer checkout, account, and order-management flows.
- Integrated smoke and regression tests into GitHub Actions, reducing manual release verification time for weekly deployments.
- Expanded Jest coverage for shared frontend utilities and collaborated with developers to improve testability of React components.
- Created defect triage dashboards and quality reports that helped product teams prioritize recurring reliability issues.

Technologies: TypeScript, Cypress, Playwright, Jest, GitHub Actions, React, REST APIs, Postman

Quality Engineer

Aug 2020 - Jul 2023

Fjordbyte Labs · Stockholm, Sweden

- Developed Cypress automation for subscription, billing, and user-permission workflows across multiple browser configurations.
- Introduced Playwright checks for cross-browser scenarios and stabilized flaky tests through better selectors, fixtures, and retry strategy.
- Maintained CI quality gates in GitHub Actions and documented release-readiness criteria for engineering squads.
- Partnered with backend engineers to validate REST API behavior and improve defect reproduction steps.

Technologies: TypeScript, Cypress, Playwright, GitHub Actions, Jest, REST APIs, SQL, Jira
